

## Tyre & Rim Guard

Let's face it, our roads aren't the best. Potholes and other surface issues are a real danger to your wheels. And not only do your tyres and rims make your car look awesome, but they're very important for your safety when you drive. They must be looked after. But sometimes there's no budget. Our solution is Tyre & Rim Guard.

With Budget Insurance Tyre and Rim Guard, you can claim for accidental damage to your vehicle's tyres and rims – no problem.

### Including Fine Support\*:

With Tyre & Rim Guard, you get Fine Support as well – say goodbye to the shock of discovering unpaid fines at a roadblock.

Fine Support also checks, verifies and chases all ways to get your fines reduced which is always good news for your budget.

We can't fix the roads – but we can help keep your car in top form while driving on them.

To find out more about Tyre & Rim Guard, check out our brochure.

*\*Digicall is now providing the service for Fine Support on behalf of your insurer.*
